

SOWGOTO RAHA SUNNY

Frisco, TX | 972-910-2807 | rahasunny94@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Systems and DevOps Support Engineer with 6+ years of experience supporting high-volume production platforms processing 50,000+ daily transactions with 99.9% uptime. Skilled in incident response, root-cause analysis, log-driven troubleshooting, diagnostic automation, and production reliability improvement across application and infrastructure layers. Reduced resolution time by 30% while collaborating with development, DevOps, security, and infrastructure teams to resolve production issues, support releases, and improve service stability.

Technical Skills

Production Support & SRE: Incident response, problem management, change management, L2/L3 escalation, root-cause analysis, SLA support, major incident support, deployment validation

Cloud & Infrastructure: AWS (EC2, S3, IAM, VPC, RDS), Microsoft Azure, Linux (Ubuntu, RHEL), UNIX, Windows Server, VMware, Docker, Kubernetes

CI/CD & Automation: Jenkins, Git, GitHub, CI/CD, Python, Bash, PowerShell, Terraform, Ansible

Databases & Data: Oracle, SQL, PL/SQL, SQL Server (MSSQL), MySQL, MariaDB, MongoDB, Snowflake, ETL pipelines, batch processing, query optimization

Applications & APIs: Java, Spring Boot, REST APIs, API troubleshooting, Apache, Nginx, web services

ITSM, Monitoring & Methodologies: ServiceNow, Jira, OTRS, CloudWatch, Prometheus, Agile, Scrum

Endpoint Support: Windows 10/11, macOS, hardware/software troubleshooting, software installation, system imaging

Networking: TCP/IP, DNS, DHCP, VPN, SNMP, FTP/SFTP/SSH, HTTP/HTTPS, Wireshark

Experience

Graduate Teaching Assistant – Applied Machine Learning

Jan 2025 – May 2025

University of North Texas, Denton, TX

- Provided technical support to graduate students for software setup, Python debugging, code review, and classroom and lab activities while creating documentation and explaining solutions to users with varied technical backgrounds.

Senior System Engineer

Jul 2022 – Jul 2024

Dotlines Bangladesh, Dhaka, Bangladesh

- Sustained 99.9% uptime across production platforms processing 50,000+ daily transactions by supporting Linux/Windows servers, databases, APIs, and web services.
- Reduced mean time to resolution (MTTR) by 30% across 35+ monthly incidents by standardizing Linux log analysis, SQL investigation, API validation, and service-health checks.
- Built Python, Bash, SQL, and PowerShell automation for diagnostics and job monitoring, replacing repetitive manual checks and improving early issue detection.
- Participated in 24/7 production support, coordinated L2/L3 escalations, and documented incident timelines, root-cause findings, corrective actions, and preventive measures.
- Collaborated with development, DevOps, security, and infrastructure teams to validate CI/CD deployments, review rollback plans, conduct post-release checks, and resolve issues affecting Java/Spring Boot and Python services.
- Supported application and infrastructure workloads in AWS environments, using EC2, CloudWatch, IAM, and related services for operational monitoring, troubleshooting, and production support.

System Engineer

May 2019 – Jun 2022

Dotlines Bangladesh, Dhaka, Bangladesh

- Resolved 60+ weekly tickets involving application errors, SQL/database issues, Linux services, connectivity, user access, file transfers, and UAT validation for telecom outbound calling services while meeting SLA targets.
- Reduced downtime on payment gateway, Value Added Services (VAS), and bulk SMS/OTP services through proactive server monitoring, database investigation, and message-delivery troubleshooting.
- Investigated production failures across application, database, and infrastructure layers and coordinated escalations with development and operations teams through resolution.
- Maintained Linux/Windows systems, Apache/Nginx services, and FTP/SFTP/SSH access supporting daily operations.
- Performed patch validation, backup checks, and vulnerability remediation to support system security, reliability.

Education

University of North Texas

2026

M.S. in Cybersecurity, Denton, TX

GPA: 3.72/4.00

Jahangirnagar University

2019

M.S. in Information Technology, Bangladesh

GPA: 3.01/4.00

Jahangirnagar University

2017

B.S. in Information Technology, Bangladesh

GPA: 3.45/4.00

Certifications

AWS Certified Solutions Architect – Associate
